

Flavors for the world, we love cookie dough... and you!

Flavors for the World is our concept in which we share our love for cookie dough around the globe! You see, we've been producing cookie dough chunks, in classic flavors, for a number of years now.

Our cookie dough chunks are already special because of their exceptional quality, chewiness and the taste of pure Dutch butter. But we want to make them even more special with three categories of cookie dough flavors for cookie dough lovers from around the world.

Try our **All Stars**, some of the most popular flavors around the World, like Grannies Apple Pie (GAP)! Our **Dutch Delights** are typical Dutch flavors. But just to make sure they are not what you might expect, we've added a twist! So...Spicy B. (Spiced Biscuit & Banana) anyone? And if you are a little crazy (like us) you will love our **Cookie Wookie** cookie dough chunks. We dare you to try Lick O' Mint...our love-it-or-leave-it licorice & mint cookie dough chunk that it is guaranteed to blow your socks off! Don't believe us? Try it yourself!

Can't imagine your life without our cookie dough chunks?
